GENUINE LIME FINISH

INCANTO #D001

TEXTURED GENUINE SLAKED LIME FINISH

DESCRIPTION

INCANTO is unique composition allows the applicator to create textured and wavy effects, even with high thickness. Its a textured plaster made from genuine finely filtered aged slaked lime, marble aggregates, natural fibers, fillers, and binders. It has an excellent filling power, and a natural resistance to mold and bacteria.

INCANTO is suitable for interior surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability.

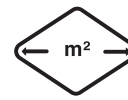

INCANTO is supplied in white color (BIANCO). To tint INCANTO, use oxide based pigments or any other limestable (alkali resistant) colorant.

Stainless steel trowel,
decorative tools,sponge

1 - 2 coats

1.5 - 2.5 kg/m²
(0.14 - 0.23 kg/ft²)

Packaging	Price	Minimum Quantity
D001/20 20 kg(44 lb)	\$257.50	1 piece
D001/01 1 kg (2.2 lb)	\$27.77	4 pieces

ISPEGU #D002

HIGH-GLOSS GENUINE SLAKED LIME FINISH

DESCRIPTION

ISPEGU traditionally finished to high gloss, is easy to use and resists peeling when polishing or burnishing. Its unique composition allows the applicator to create smooth marble-look and high-gloss surfaces. is a plaster material made from genuine finely filtered aged slaked lime finish, with natural fillers, and selected binders. It has an excellent filling power, and a natural resistance to mold and bacteria.

ISPEGU is suitable for interior surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability. Its unique composition allows the applicator to create marblelook smooth and high-gloss surfaces.

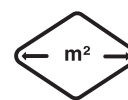

ISPEGU is supplied in white color (BIANCO). To tint ISPEGU, use oxide based pigments or any other limestable (alkali resistant) colorant.

Stainless steel trowel

3 coats

0.8 - 1.0 kg/m²
(0.07 - 0.09 kg/ft²)

Packaging	Price	Minimum Quantity
D002/20 20 kg(44 lb)	\$238.05	1 piece
D002/01 1kg (2.2 lb)	\$31.74	4 pieces

CANOVA #D003

SEMI-GLOSS SLAKED LIME MARMORINO FINISH

DESCRIPTION

CANOVA is a traditional marmorino whose composition allows the applicator to create smooth and semigloss surfaces. It's a coarse grain plaster made from genuine finely filtered aged slaked lime, marble aggregates, fine quartz sand, fillers, and binders. It has an excellent filling power, and a natural resistance to mold and bacteria.

CANOVA is suitable for interior and exterior surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability. Its unique composition allows the applicator to create smooth and semigloss surfaces.

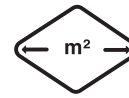

CANOVA is supplied in white color (BIANCO). To tint **CANOVA**, use oxide based pigments or any other limestable (alkali resistant) colorant.

Stainless steel trowel,
sponge

2 coats

1.7 - 2.0 kg/m²
(0.16 - 0.18 kg/ft²)

Packaging	Price	Minimum Quantity
D003/20 20 kg(44 lb)	\$238.78	1 piece
D003/01 1 kg (2.2 lb)	\$27.60	4 pieces

CARRARA #D004

SEMI-GLOSS SLAKED LIME FINISH - FLAT FINISH

DESCRIPTION

CARRARA is unique composition allows the applicator to create ultra smooth surfaces with a semigloss finish. It's a medium grain plaster made from genuine finely filtered aged slaked lime, marble aggregates, fillers and binders. It has an excellent filling power, and a natural resistance to mold and bacteria.

CARRARA is suitable for interior surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability. Its unique composition allows the applicator to create smooth and semigloss surfaces.

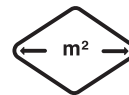

CARRARA is supplied in white color (BIANCO). To tint **CARRARA**, use oxide based pigments or any other limestable (alkali resistant) colorant.

Stainless steel trowel,
decorative tools, sponge

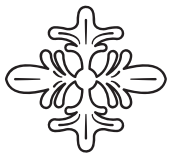

2 coats

1.4 - 1.7 kg/m²
(0.13 - 0.15 kg/ft²)

Packaging	Price	Minimum Quantity
D004/20 20 kg(44 lb)	\$224.83	1 piece
D004/01 1 kg (2.2 lb)	\$20.68	4 pieces

TESEO #D005

TRAVERTINE LOOK SLAKED LIME FINISH

DESCRIPTION

TESEO is unique composition allows the applicator to create textured and scratched surfaces similar to travertine marble. Its a plaster material made from genuine finely filtered aged slaked lime, marble aggregates, natural fibers, fillers, and binders. It has an excellent filling power, and a natural resistance to mold and bacteria.

TESEO is suitable for interior and exterior surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability. Its unique composition allows the applicator to create textured and scratched surfaces similar to Travertine marble.

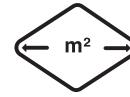

TESEO is supplied in white color (BIANCO). To tint TESEO, use oxide based pigments or any other limestable (alkali resistant) colorant.

Stainless steel trowel,
decorative tools,sponge

2 coats

1.7 - 2.0 kg/m²
(0.16 - 0.18 kg/ft²)

Packaging	Price	Minimum Quantity
D005/20 20 kg(44 lb)	\$253.00	1 piece
D005/01 1kg (2.2 lb)	\$21.56	4 pieces

TATTO #D006

VELVET - TOUCH SATIN SLAKED LIME FINISH

DESCRIPTION

TATTO is a plaster material made from genuine finely filtered aged slaked lime, marble aggregates, quartz sand, fillers, and binders. It has an excellent filling power, and a natural resistance to mold and bacteria.

TATTO is suitable for interior surfaces. Its unique composition allows the applicator to create satin and velvet touch surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability.

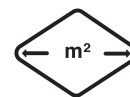

TATTO is supplied in white color (BIANCO). To tint TATTO, use oxide based pigments or any other limestable (alkali resistant) colorant.

Stainless steel trowel,
decorative tools,sponge

2 coats

1.5 - 1.8 kg/m²
(0.16 - 0.18 kg/ft²)

Packaging	Price	Minimum Quantity
D006/20 20 kg(44 lb)	\$277.15	1 piece
D006/01 1 kg 92.2 lb)	\$23.00	4 pieces

LUCE #D007

METALLIC & SATIN SLAKED LIME FINISH

DESCRIPTION

LUCE is unique composition allows the applicator to create satin and smooth surfaces, with a subtle metallic sheen. Its a plaster made from genuine finely filtered aged slaked lime, marble aggregates, shiny quartz sand, fillers, and binders. It has an excellent filling power, and a natural resistance to mold and bacteria.

LUCE is suitable for interior surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability.

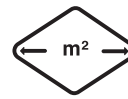

LUCE is supplied in white color (BIANCO). To tint LUCE, use oxide based pigments or any other limestable (alkali resistant) colorant.

Stainless steel trowel,
decorative tools,sponge

2 coats

1.5 - 1.8 kg/m²
(0.14 - 0.16 kg/ft²)

Packaging	Price	Minimum Quantity
D007/20 20 kg(44 lb)	\$356.50	1 piece
D007/01 1 KG (2.2 LB)	\$36.23	4 pieces

TADELAKT #D008

MOROCCAN TRADITIONAL HYDRAULIC LIME FINISH

DESCRIPTION

TADELAKT is a typical Moroccan plaster finish obtained with genuine finely filtered aged hydraulic lime, calcareous aggregates, clays, and special binders. It has an excellent filling power, and a natural resistance to mold and bacteria.

TADELAKT is suitable for interior and exterior surfaces, especially in humid environment. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability. The finish is lightly textured but smooth and matt.

TADELAKT is supplied in white color (BIANCO). To tint TADELAKT, use oxide based pigments or any other limestable (alkali resistant) colorant.

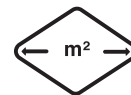

Stainless steel trowel,
decorative tools,sponge

Add water and mix

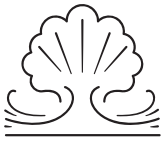

2 coats

1.7 - 2.0 kg/m²
(0.16 - 0.18 kg/ft²)

Packaging	Price	Minimum Quantity
D008/16 16 kg(35 lb)	\$277.15	1 piece

INTO CALCE FINE #D009F

SLAKED LIME FINE MORTAR - 0.7 mm

DESCRIPTION

INTO CALCE FINE is a fine grain (0,7mm) lime based mortar obtained from genuine filtered aged slaked lime, marble aggregates, fillers, and binders. It has an excellent filling power, and a natural resistance to mold and bacteria. INTO CALCE FINE can be used as a prep coat for lime-based plaster to reduce the roughness of the support and grant an ideal anchor, or as a finishing itself, matt and rough.

INTO CALCE FINE is suitable for interior and exterior surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability.

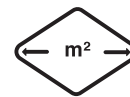

INTO CALCE FINE is supplied in white color (BIANCO). To tint INTO CALCE FINE, use oxide-based pigments or any other lime-stable (alkali resistant) colorant.

Stainless steel trowel,
sponge trowel

1 coats

1.4 - 1.6 kg/m²
(0.14 - 0.16 kg/ft²)

Packaging	Price	Minimum Quantity
D009/25F 25 kg(55 lb)	\$158.00	1 piece

INTO CALCE MEDIUM #D009M

SLAKED LIME FINE MORTAR - 1.4 mm

DESCRIPTION

INTO CALCE MEDIUM is a medium grain (1,4mm) lime based mortar obtained from genuine filtered aged slaked lime, marble aggregates, fillers, and binders. It has an excellent filling power, and a natural resistance to mold and bacteria. INTO CALCE MEDIUM can be used as a prep coat for lime-based plaster to reduce the roughness of the support and grant an ideal anchor, or as a finishing itself, matt and rough.

INTO CALCE MEDIUM is suitable for interior and exterior surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability.

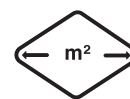

INTO CALCE MEDIUM is supplied in white color (BIANCO). To tint INTO CALCE MEDIUM, use oxide-based pigments or any other lime-stable (alkali resistant) colorant.

Stainless steel trowel
sponge trowel

1 coats

1.4 - 1.6 kg/m²
(0.14 - 0.16 kg/ft²)

Packaging	Price	Minimum Quantity
D009/25M 25 kg(55 lb)	\$170.20	1 piece

LIME PAINT

#D010

SLAKED LIME PAINT

DESCRIPTION

LIME PAINT is a lime-based paint obtained from genuine filtered aged slaked lime, natural inerts, fillers, and special water resistant additives. It has a natural resistance to mold and bacteria.

LIME PAINT is suitable for interior and exterior surfaces. Perfectly stable over time, it maintains the breathability of the substrate thanks to its outstanding water vapor permeability.

LIME PAINT is supplied in white color (BIANCO).

To tint **LIME PAINT**, use oxide based pigments or any other lime-stable (alkali resistant) colorant.

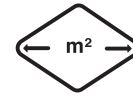

Brush or short hair roller

Dilute with water

2 coats

0.3 – 0.4 kg/m²
(0.03 - 0.034 kg/ft²)

Packaging	Price	Minimum Quantity
D010/14 14lt	\$177.10	4 pieces

LIME ACCESSORIES METALLIC PAINTS ACRILYC

NATURAL WAX #D011

LIME FINISHES TOPCOAT

DESCRIPTION

NATURAL WAX is a water based anti-dirt protector suitable for smooth lime based finishes (Venetian plasters and Marmorino of all grain size).

NATURAL WAX is based on genuine bee's wax, Marseille's soap, emollients, and special additives. Its purpose is to protect and allow the cleaning of the surface, enhance the finish sheen, maintaining its breathability.

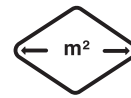

NATURAL WAX is suitable as a top-coat of internal surfaces.

Soft sponge and non-woven fabric cloth

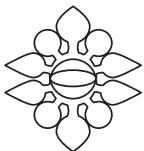

1 coats

33 - 50 ml/m²
(3 - 5 ml/ft²)

Packaging	Price	Minimum Quantity
D011/05 5 lt(1.32 gal)	\$217.35	1 piece
D011/01 1 lt(0.264 gal)	\$59.46	4 pieces

SAPONE DI MARSIGLIA #D012

LIME FINISHES TOPCOAT

DESCRIPTION

SAPONE DI MARSIGLIA is a water based anti-dirt protector suitable for smooth lime based finishes (Venetian plasters and Marmorino of all grain size).

SAPONE DI MARSIGLIA is based on genuine Marseille's soap, emollients, and special additives. Its purpose is to protect and allow the cleaning of the surface, maintaining its breathability.

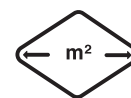

SAPONE DI MARSIGLIA is suitable as a top-coat for internal surfaces.

Stainless steel trowel and non-woven fabric cloth

1 coats

40 - 50 g/m²
(3.7 - 4.7 g/ft²)

Packaging	Price	Minimum Quantity
D012/01 1 kg(2.2 lb)	\$59.51	4 pieces

MINERAL PRIMER #D01

PRIMER FOR LIME BASED FINISHES

DESCRIPTION

MINERAL PRIMER is a water-based primer suitable for all kind of lime based plaster finishes.

A proper surface preparation is mandatory for a good result of the finish. The composition of **MINERAL PRIMER** is composed of based on fine quartz sand, acrylic co-polymers and special additives, allows the adhesion on every surface. Its rough structure eases the application of the first coat of the plaster.

MINERAL PRIMER is suitable for interior and exterior surfaces.

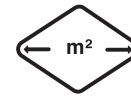

Brush or short hair roller

Dilute with water

1 coats

140 - 200 g/m²
(10 - 20 g/ft²)

Packaging	Price	Minimum Quantity
D013/05 5 kg(11 lb)	\$168.48	1 piece

DOC PRIMER #D014

FIXATIVE WITH NANO-STRUCTURED POLYMERS FOR INTERIOR AND EXTERIOR APPLICATION

DESCRIPTION

DOC PRIMER is a water-born penetrating and consolidating fixative, based on special nano-structured polymers, suitable for preliminary treatment of old, uncoherent and absorbent mineral surfaces.

DOC PRIMER is suitable for interior and exterior surfaces. It improves cohesion and absorption of the support, creating the ideal anchor and insulation from the alkaline environment.

DOC PRIMER can be applied over all kind of surfaces. If new, just one direct coat, if old and dirty, a good brushing and cleaning is priory required. In case of old and sealed surface, it's mandatory to sand the surface, clean and apply **DOC PRIMER** once completely dry.

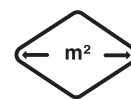

Brush, Roller or spray

Dilute with water

1 - 2 coats

Lime based surface:
8 - 10 m²/lt (86 - 108 ft²/lt).
Other: 15 - 18 m²/lt
(161 - 193 ft²/lt)

Packaging	Price	Minimum Quantity
D014/05 5 lt(1.32 gal)	\$172.30	1 piece

IDRO SEALER #D015

WATER REPELLENT TOPCOAT FOR INTERIOR AND EXTERIOR APPLICATION

DESCRIPTION

IDRO SEALER is a clear penetrating water-born water/oil repellent topcoat, based on special acrylic and polyurethane polymers, suitable for the treatment of interior and exterior surfaces, under any environmental conditions.

IDRO SEALER can be applied to any kind of mineral support, including bare concrete, reinforced and cellular concrete, sandy or calcareous stone, bricks and lime plasters.

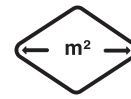

IDRO SEALER is not recommended on old paint and organic coatings, unabsorbent supports (polished marble and granite) and gypsum.

Brush or spray

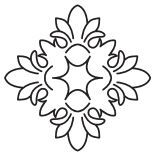

1 coats

* Average: 250 - 400 ml/m²
(20 - 40 ml/ft²)

* For more information please refer to the technical data sheet

Packaging	Price	Minimum Quantity
D015/10 10 lt (2.64 gal)	\$569.50	1 piece
D015/05 5 lt(1.32 gal)	\$289.50	1 piece

METAL WAX #D016

METALLICA BEE'S WAX FOR LIME BASE FINISHES

DESCRIPTION

METAL WAX is a water based decorative topcoat suitable for smooth lime based finishes (Venetian plasters and Marmorino of all grain size).

METAL WAX is based on genuine bee's wax, Marseille's soap, emollients, and extra fine metallic powder. It's available in 4 different colors: GOLD, SILVER (tintable), COPPER, BRONZE.

METAL WAX is suitable as a top-coat of internal surfaces.

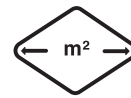

Brush, Roller or spray

Dilute with water

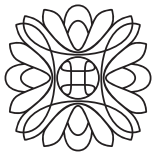

1 - 2 coats

Lime based surface:
8 - 10 m²/lt (86 - 108 ft²/lt).
Other: 15 - 18 m²/lt
(161 - 193 ft²/lt)

Packaging	Price	Minimum Quantity
D016/008G Gold 800 gr (1.7 lb)	\$141.16	4 pieces
D016/008C Copper 800 gr (1.7 lb)	\$141.16	4 pieces
D016/008S Silver 800 gr (1.7 lb)	\$141.16	4 pieces
D016/008B Bronze 800 gr (1.7 lb)	\$141.16	4 pieces

MIDA ADHESIVE #D017

ADHESIVE EMULSION FOR MIDA FOIL

DESCRIPTION

MIDA ADHESIVE is a concentrated liquid adhesive, in aqueous emulsion, specially formulated for **MIDA SYSTEM**.

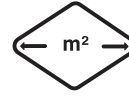

MIDA ADHESIVE is a blend of synthetic rubbers, resins and cross-linking agents. It prepares the surface forming a film with high adhesiveness, excellent resistance to temperatures and outstanding chemical and mechanical resistance.

Roller or spray

1 coats

18 m²/lt
(180 ft²/lt)

Packaging	Price	Minimum Quantity
D017/01 1 lt(0.26 gal)	\$86.47	4 pieces

MIDA SEALER #D019

WATER REPELLENT TOPCOAT FOR INTERIOR AND EXTERIOR APPLICATION

DESCRIPTION

MIDA SEALER is a water based self-linking acrylic varnish to protect **MIDA FOIL** application.

With its high transparency, excellent resistance and a blocking effect, **MIDA SEALER** protects the treated surface, forming a transparent and strong film.

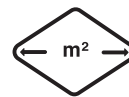

Roller

Dilute with water

1 coats

18 m²/lt
(180 ft²/lt)

Packaging	Price	Minimum Quantity
D019/01 1 lt (0.26 gal)	\$79.35	4 pieces

MIDA FOIL #D018

LAMINATED FOIL FOR LIQUID METAL EFFECT

DESCRIPTION

MIDA FOIL is a laminated sheet designed to give a liquid metal effect to smooth and textured lime based finishes.

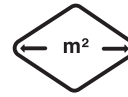

MIDA FOIL is made of polypropylene and available in 5 options: GOLD, SILVER, BRONZE, COPPER, GUN METAL GREY.

soft sponge and non-woven fabric cloth

1 coats

9 m²/roll
(97 ft²/roll)

Packaging	Price	Minimum Quantity
D018/61G Gold 15cm x 61m	\$138.86	2 pieces

D018/61GMG Gun Metal Gray 15cm x 61m	\$138.86	2 pieces

MICA #D020

MICA ADDITIVE FOR LIME BASED FINISHES

DESCRIPTION

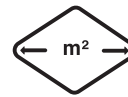

MICA is a synthetic mica (fluorophlogopite) additive for lime-based finishes.

MICA has an outstanding resistance to lime environment thanks to the high chemical stability. MICA is available in 3 options: GOLD, SILVER, BRONZE.

MICA can be used on any lime-based plaster to give a glittering effect.

mix with a mechanically
mix for about 2 minutes

0.2 kg/0.4 lb for 20 kg/44 lb
per bucket

D020/002G Gold 0.2 kg (0.44lb)	\$59.51	2 pieces
D020/002S Silver 0.2 kg (0.44lb)	\$59.51	2 pieces
D020/002B Bronze 0.2 kg (0.44lb)	\$59.51	2 pieces

ERA #D030

SANDY DECORATIVE PAINT

DESCRIPTION

ERA eco-friendly formulation improves interior living comfort, granting energy saving throughout the year, in keeping with an aesthetic hint and a modern taste.

ERA is a metallic paint based on terpolyacrylic resin gels and special additives in aqueous dispersion.

ERA sandy composition along with the correct application technique gives to the surface a 3D effect, making it suitable with any kind of architectural style, from classic to modern.

ERA can be applied on any internal surface, such as masonry, MDF, PVC, with the correct preparation.

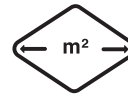

ERA is supplied in SILVER and GOLD.

Spalter brush or sponge

1 coat

10-12 m²/lt

Packaging	Price	Minimum Quantity
D030/01G GOLD 1 lt	\$105.23	6 pieces

D030/04S SILVER 4 lt	\$277.52	1 piece

SPACE #D031

DECORATIVE METALLIC PAINT

DESCRIPTION

SPACE is a metallic paint with metallic power based on terpolyacrylic resin gels and special additives in aqueous dispersion.

Its eco-friendly formulation improves interior living comfort, granting energy saving throughout the year, in keeping with an aesthetic hint and a modern taste.

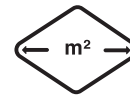

SPACE grants good water permeability and is supplied in **SILVER** and **GOLD**.

Spalter brush or sponge

1 coat

0.65 - 0.75 kg/m²

D031/04S SILVER 4 lt	\$415.15	1 piece

INFINITY #D032

VELVETY DECORATIVE PAINT

DESCRIPTION

INFINITY is a decorative metallic paint that creates a highlighted luster and a velvet touch effect making it suitable with any kind of architectural style from classic to modern. INFINITY is a water based paint made from acrylic resins and special transparent additives.

INFINITY is particles along with the accurate application technique create a highlighted luster and a velvet touch effect, making INFINITY suitable with any kind of architectural style, from classic to modern.

INFINITY can be applied on any internal surface, such as masonry, MDF, PVC, following the correct preparation.

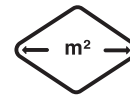

INFINITY is supplied 4 colors, WHITE, SILVER, GOLD and GREY.

Stainless steel trowel

ARROW #D025

ACRILYC RENDER - 1,2mm

DESCRIPTION

ARROW is a water-born acrylic rustic render, medium grained (1,2mm), based on synthetic copolymers, selected colorant pigments and siliceous fillers.

ARROW is easy to apply, alkali and light resistant and with a good water permeability. The result of an elastic and hard render, suitable for outdoor application.

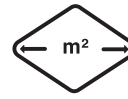

To tint **ARROW**, use oxide-based pigments (alkali resistant) colorant.

Stainless steel trowel

1 - 2 coat

1.5 - 1.8 kg//m²

Packaging	Price	Minimum Quantity
D025/25 25kg	€138.86	1 piece

DIAMOND SYSTEM

DECORATIVE MICRO- CEMENT SYSTEM FLOORS, WALLS, COUNTERTOPS & SHOWER AREAS

DECORA DIAMOND SYSTEM is a micro-cement system.

It is easy to use and less labor intensive than traditional cement systems.

The **DECORA DIAMOND SYSTEM** is suitable for Walls, Floors, Countertops, Shower areas and many other surfaces.

DECORA DIAMOND SYSTEM is suitable with any architectural style such as Modern, Minimalistic, Industrial or others. It can be applied directly on top of cement, stones, tiles, laminates and other substrates both in the horizontal or vertical plane.

DECORA DIAMOND SYSTEM grants an outstanding mechanical resistance (even with low thickness), along with a good elasticity and an extraordinary water resistance.

DECORA MICRO-CEMENT SYSTEM is composed by:
DOC PRIMER or **ONE PRIMER**
DECORA FLOOR LEVEL
DECORA DIAMOND FLOOR
DECORA DIAMOND FLOOR FINE
DECORA DIAMOND SEALER

ONE PRIMER #D024

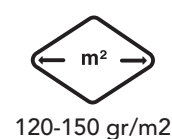

MULTI-SURFACE FIXATIVE EPOXY PRIMER FOR INTERIOR APPLICATION

DESCRIPTION

ONE PRIMER is a water-born 2-component epoxy-based primer, based on special epoxy-polyamide resins, suitable for multi-surface preliminary treatments.

ONE PRIMER is suitable for interior multiple surfaces, such as countertops, wall, marble, ceramic, wood, MDF. It improves cohesion and absorption of the support, creating the ideal anchor and insulation.

ONE PRIMER is the ideal primer for the DECORA FLOOR SYSTEM.

Packaging	Price	Minimum Quantity
D024/05 5 kg	\$241.00	1 piece

DECORA FLOOR LEVEL #D023

CEMENT BASED RENDER

DESCRIPTION

DECORA FLOOR LEVEL is a 2-component filling render for indoor and outdoor application.

Based on resins, special additives and selected inserts, along with the True Cement mix, DECORA FLOOR LEVEL is the suitable prep-coat for the DECORA FLOOR SYSTEM.

Easy to apply, with outstanding mechanical resistance, DECORA FLOOR LEVEL prevents micro-cracks and levels tiled floors, walls and countertops.

DECORA FLOOR LEVEL can be used over concrete, marble, tiled surfaces (along with alkali-resistant mesh if needed).

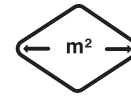

mix mechanically

Stainless steel trowel

2 coats

0.7 - 0.9 kg/m² per coat

Packaging	Price	Minimum Quantity
D023/20 20 kg	\$241.50	1 piece

DECORA DIAMOND FLOOR #D021

DECORATIVE MICRO- CEMENT SYSTEM FLOORS, WALLS, COUNTERTOPS & SHOWER AREAS

DESCRIPTION

DECORA DIAMOND FLOOR is a single-component decorative plaster based on modified PU resins in aqueous emulsion, controlled grain size aggregates, ideal for decorating and remodeling interior walls and floors, countertops.

DECORA DIAMOND FLOOR grants an outstanding mechanical resistance (even with low thickness), along with a good elasticity and extraordinary water resistance.

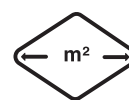

DECORA DIAMOND FLOOR is suitable with any architectural style, modern or minimal, classic or industrial, and can be applied on interior masonry, concrete and tiled surfaces, both on horizontal and vertical surfaces.

Stainless steel trowel

2 coats

0.5 - 0.6 kg/m² per coat

Packaging	Price	Minimum Quantity
D021/20 20 kg	\$345.00	1 piece

DECORA DIAMOND FLOOR FINE #D021/20F

DECORATIVE MICRO- CEMENT SYSTEM FLOORS, WALLS, COUNTERTOPS & SHOWER AREAS

DESCRIPTION

DECORA DIAMOND FLOOR is a single-component decorative plaster based on modified PU resins in aqueous emulsion, controlled grain size aggregates, ideal for decorating and remodeling interior walls and floors, countertops.

DECORA DIAMOND FLOOR grants an outstanding mechanical resistance (even with low thickness), along with a good elasticity and extraordinary water resistance.

DECORA DIAMOND FLOOR is suitable with any architectural style, modern or minimal, classic or industrial, and can be applied on interior masonry, concrete and tiled surfaces, both on horizontal and vertical surfaces.

Stainless steel trowel

2 coats

0.6 - 0.7 kg/m² per coat
